## Current Position

### Biomedical AI/ML Engineer

Heidelberg, Germany

GSK.ai

2024 – Ongoing

- Research and development of state-of-the-art ML models to optimize performance on a range of biomedical prediction tasks, leading to models that are being considered for registration as medical devices.
- Consistently top 3 in my department for both code contributions and code reviews in the past 4 quarters.
- Implemented bespoke support tools to enhance job scheduling and experiment analysis for my team. This resulted in an improved throughput of training jobs by a factor of  $\sim 3$ .
- Liaised with experts in biology, medicine, and clinical trials to ensure optimal collection of data to train biomedical ML models.
- Secure handling of sensitive data.

## Skills, Technologies, and Scientific Expertise

**Programming Languages:** Python, R, Go, SQL

**Tools:** Pytorch, Pandas, Polars, Ibis, DuckDB, FastAPI, Scikit-learn, SQLite, HDF5, Git, Github, Docker, Kubernetes (CKAD-certified), Spark, Airflow

**Software Engineering:** CI/CD (Azure, Github Actions), Cloud Computing (GCP)

**Machine learning and Data Science:** Deep Learning, Reinforcement Learning, Classical ML (GLMs, Trees, GAMs, etc.), Diffusion Models, EDA, Data Visualization, Interpretable ML, Graph ML, Data Modelling

**Probability and Statistics:** Hypothesis testing, A/B testing, Linear Algebra

**Biology and Medicine:** Epigenetics, Genomics, Proteins, Pathways, Molecular Networks, Immunology, Small Molecules, Molecular Dynamics, Clinical Data (EHRs), Antimicrobial Resistance, Mass Spectrometry

## Experience

### ESR Researcher in Machine Learning for Precision Medicine

Tübingen, Germany

Max Planck Institute for Intelligent Systems

2019 – 2024

- Designed and implemented deep-learning-based models and probabilistic models to solve problems in biology and biomedicine.
- Published as first author or shared first author in internationally renowned journals, including Nature Communications, Bioinformatics, and Briefings in Bioinformatics.
- ESR in the Marie Curie Innovative Training Network entitled “Machine Learning Frontiers in Precision Medicine”

### Junior Developer and Consultant

Padova, Italy

Espedia Consulting - Ethica Group

2016 – 2018

- Contributed to the creation of customized software solutions for a variety of clients, prioritizing robustness in design, and ensuring on-time delivery.

## Education

### University of Tübingen

2019 – 2025

PhD in Computer Science

- Thesis: “Biomedical Machine Learning Beyond the Training Distribution”.

### University of Edinburgh

2018 - 2019

MSc in Artificial Intelligence

### University of Trento

2014 – 2016

Master's Degree in Physics
